

Setup Site Checklist

(Upon Arrival at Destination)

Parking the RV

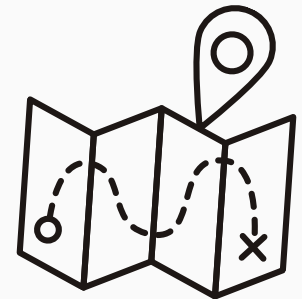

- Unless already assigned-Choose a level spot and park safely
- Use wheel chocks for stability
- Level the RV using leveling blocks or auto-leveling system

Outside Setup

- Extend stabilizers and jacks
- Connect power, water, and sewer (water first, sewer last)
- Turn on propane and check for leaks
- Set up awning, outdoor furniture, and rugs
- Extend slide-outs carefully
- Verify campsite rules and quiet hours

Inside Setup

- Turn on fridge and switch to shore power mode
- Turn on water pump if needed
- Open vents and windows for ventilation
- Set up beds and living spaces
- Test A/C, heater, and appliances
- Connect to Wi-Fi or hotspot if available

Enjoy and relax!
